WE ARE BY YOUR SIDE

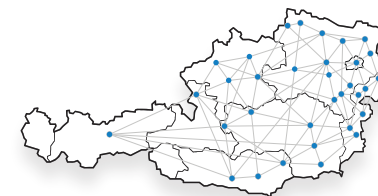

Employment poses a variety of challenges to companies. Tasks and related wage and salary structures have to be defined and adapted to current requirements. Personnel costs – in general and in detail – must be monitored. Fixed and variable remuneration components are to be defined and settled and benefits in kind, diets and expenses must be taken into account. In addition, there are diverse requirements with regard to working time models, time and performance recording as well as questions and decisions relating to the beginning and ending of employment relationships – and of course topics such as training and further education, vacation, illness, partial retirement, educational leave, teleworking and much more.

At the same time, ongoing changes and diverse reporting requirements in labor and social law, in income tax, social insurance, incidental wage costs and changes in industry-specific collective agreements must be observed.

It is good to have a reliable partner by your side who has the relevant know-how and resources. LBG is a leading consulting company in the area of „Payroll Accounting, Employer Consulting“. Our experts carry out payroll and employer consulting for around 33,000 employees. Numerous small and medium-sized companies with just a few employees trust our services just as much as important Austrian and international corporate groups with a large number of employees.

We would be happy to advise you on your individual questions relating to employment and take over the payroll accounting for you.

WE TAKE CARE OF YOUR COMPANY

Know-how and consulting: We continuously invest in training and further education of our employees, externally and as part of the "LBG Academy", provide up-to-date knowledge throughout Austria and take responsibility. At LBG Austria you will find professional expertise in all questions relating to employment as well as expert representation in tax audits and in legal remedies.

Reliability: Significantly more than 100 employees work in the consulting field „Payroll Accounting, Employer Consulting“ for you: Certified payroll accountants and certified employment and social security experts as well as lawyers and business economists familiar with employer questions. Vacation, illness, absence and even a change of employees are no longer your concern when outsourcing to us.

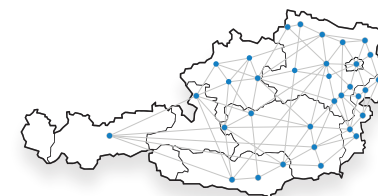

Personal consulting: At LBG, our customers will find their personal tax advisor, who is responsible for their mandate, and their specialist contact person in payroll accounting. We take care of you and your company.

Efficiency and digitalization: If you wish, we can optimize your company's organizational and digital employment processes together with you. This saves you time, duplication of effort and costs.

Confidentiality, data protection, data security, data access: Your data is safe with us. All employees are subject to the legal confidentiality of the Austrian Professional Accountants and Tax Advisors' Act (Wirtschaftstreuhandberufsgesetz). We continuously invest in hardware and software, in the integrity and reliability of our IT networks and in our company-owned, virtualized server farms in Austria. We create a digital data transfer tailored to your requirements and provide you with a secure data access at any time. A secure data storage in compliance with the GDPR and the legal retention requirements is taken for granted at LBG.
